Great – glad we are on the same page! They did ask about permits, and my City Engineer (RKA – which also services Duarte) said they would need a sketch just showing where the electrical conduit is going so that we can get it permitted. Hopefully that isn't slowing things up?

We are on the same wave length. I just sent them this email before you sent me your email.

Did they check in with you for permits?

Hi Brian,

I know Jacques is out in the field right now. He is the keeper of the installation schedule. I pinged him separately to ask him to provide an update.

Hey Guys,

I just wanted to see where we are with getting everything installed?

-Brian
